United Bowhunters of British Columbia - Membership Application

The United Bowhunters of British Columbia works to represent the bowhunting community of British Columbia. Its purpose is to provide bowhunters a focal point for their concerns and issues, to make the government decision-makers aware of these concerns and issues and to offer advice and guidance to the government.

It was formed after a meeting with the then Minister of Environment Bill Barisoff. The minister stated if the bowhunters of BC would unite they would be considered as stakeholders in wildlife management issues in the province.

The objectives of the United Bowhunters of British Columbia are:

- 1) To foster and expand the practice of archery, the sport of bowhunting and the spirit of good fellowship among archers.
- 2) To co-operate with the Provincial Government and all conservation organizations in the conservation of game; to encourage the use of the bow in the ethical hunting of all legal game; and to protect, improve and increase the privileges of bowhunters.
- 3) To provide and promote/endorse programs of educational value, on bowhunting, archery and related subjects; and to establish and make available materials and information for interested persons.
- 4) To provide a meeting place for the consideration and discussion of questions affecting the interest of the members of the British Columbia Bowhunters Association.

Membership fees have been kept low to make it easy for people to join. The UBBC does not need a lot of money to operate but it does need the support of all bowhunters in BC. It needs members.

If hunting with your bow is important to you please join us.

Name: _____ New Membership:

Address: _____ Renewal:

City/Town: _____ 1 Year Membership: \$5
